

European Joint Doctorates Program in High Performance Computing for Life sciences, Engineering and Physics

15 Marie Skłodowska-Curie PhD fellowships in:

- Lattice QCD
- Turbulent and Complex Flows
- Computational Biology
- Modelling and algorithms
- HPC architectures and technologies

The selected fellows will be admitted at two institutions receiving a dual degree upon completion

An attractive remuneration package is offered including salary, mobility and family allowances

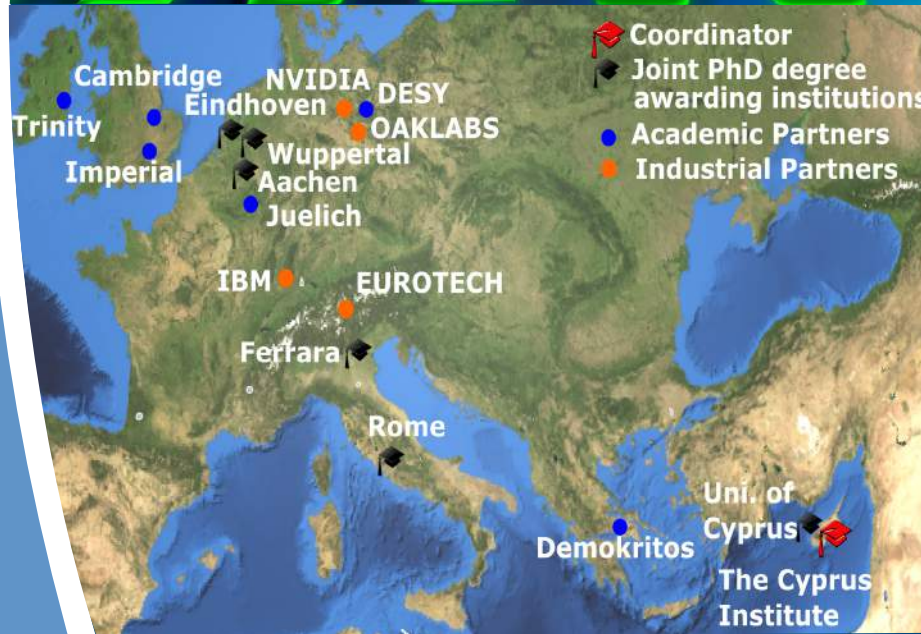

Applications are welcome from candidates worldwide with a scientific background and a keen interest in computational science
